

## ABOUT PROVINA AND THE WINEPOD.

ProVina, Inc., maker of the award-winning WinePod personal winery systems, was founded in 2005 to address the growing trend of customization and personalization in the luxury wine market. Our vision was to create a revolutionary blend of technology and art that could enable wine enthusiasts to make world-class wines in their own homes.

True to this vision, in 2008, ProVina introduced The WinePod — the world's first computer-controlled, all-in-one winemaking system.

"We did a tasting of a Napa cab, a Bordeaux, an Argentinian cab, and the cab we made. Our WinePod wine won hands down! Even after only three months in the barrel!"

**ZACH WORTHINGTON & CLIFF LIVINGSTON**  
OWNERS, CAVA WINE BAR, CAPITOLA, CA

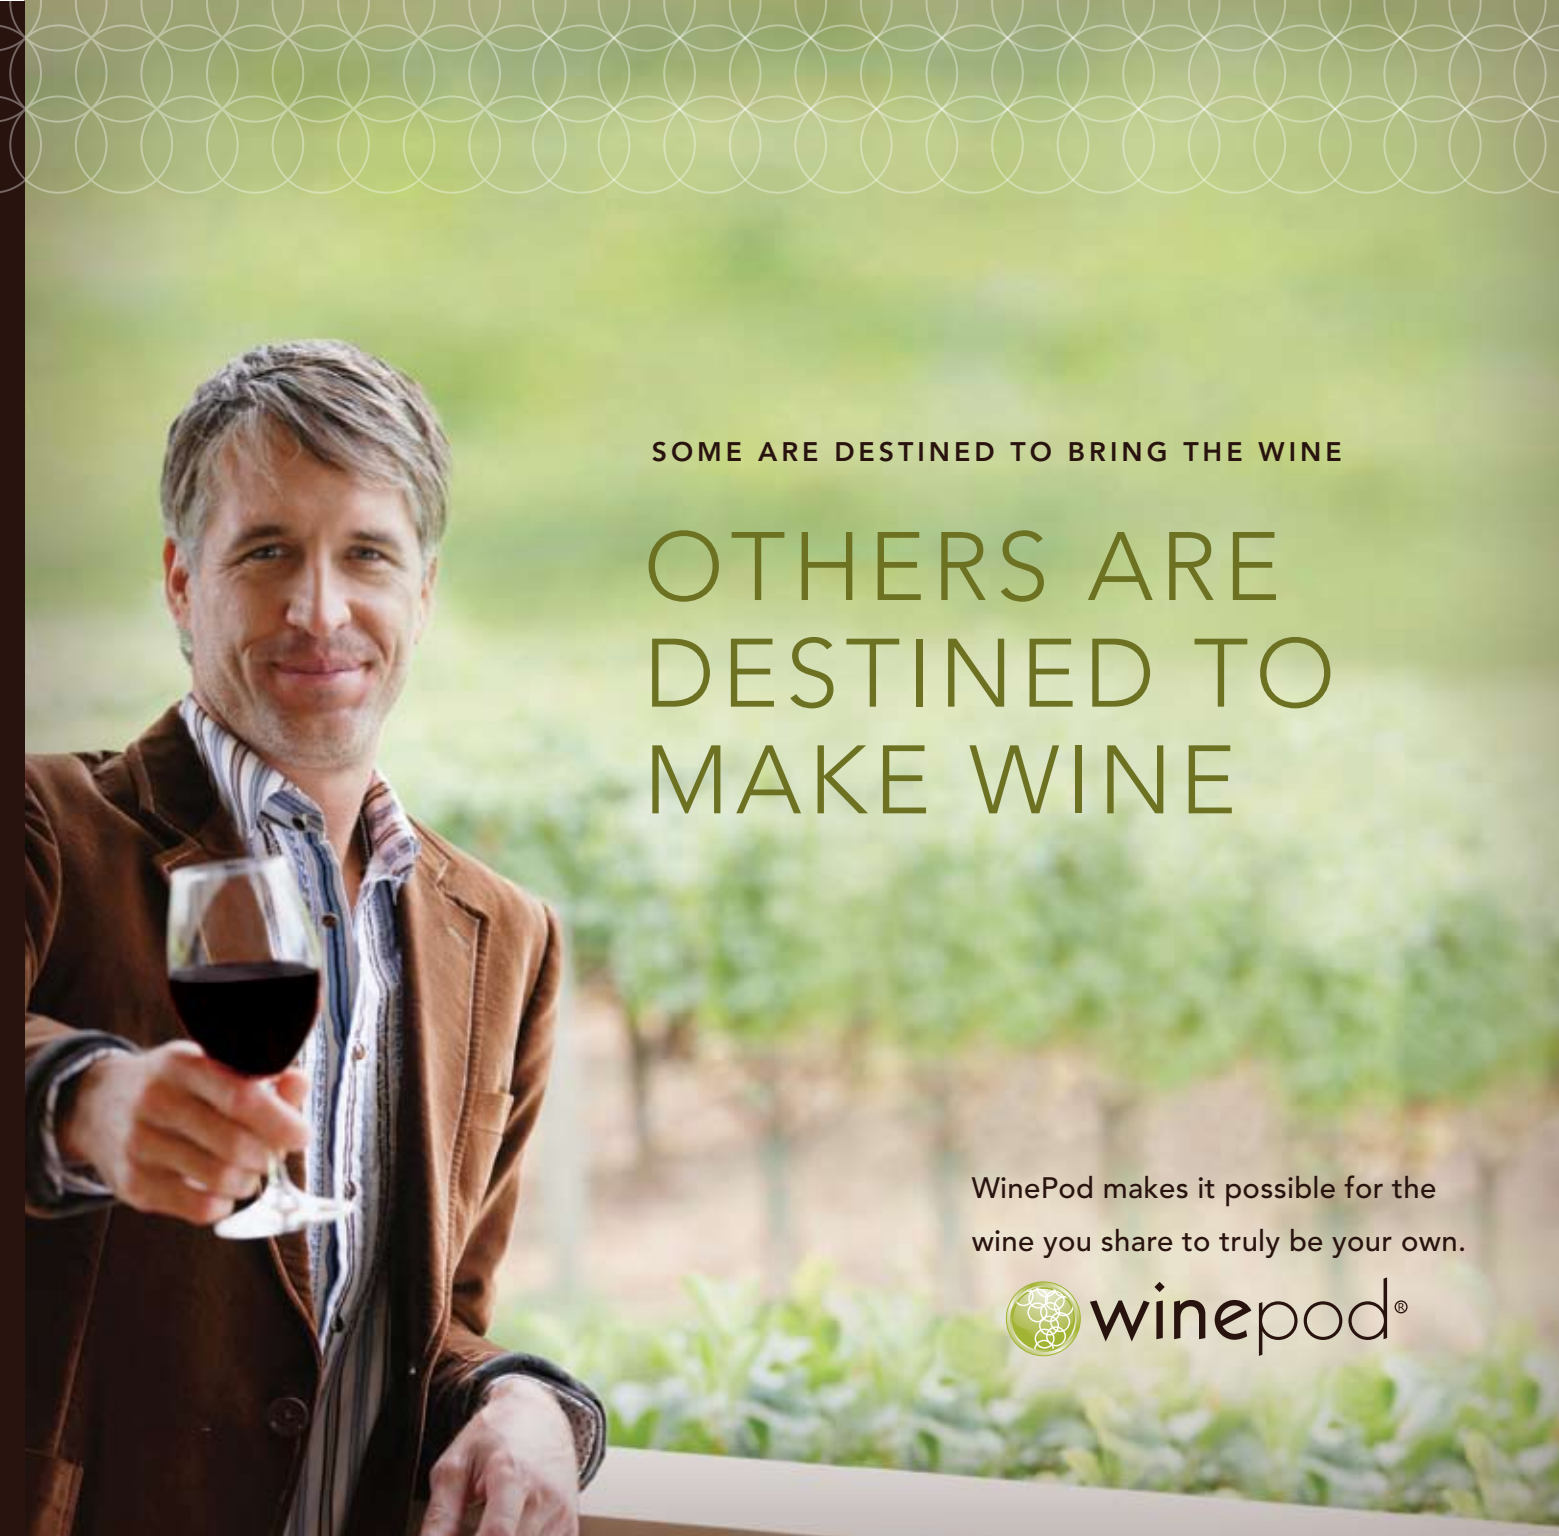

"Our wine tastes phenomenal; really good — better than some \$150 wines we've had."
